

## Ad hoc announcement pursuant to Art. 53 LR

### Relief Reports that its U.S. Collaboration Partner has Announced Expansion of Aviptadil U.S. Expanded Access and Right to Try Programs for Patients With COVID-19 Respiratory Failure who Have Exhausted All Approved Therapies

**Geneva, Switzerland, January 19, 2022** – RELIEF THERAPEUTICS Holding SA (SIX: RLF, OTCQB: RLFTF, RLFTY) (“**Relief**”), a biopharmaceutical company seeking to provide patients therapeutic relief from serious diseases with high unmet need, reported today that the parent company, NRx Pharmaceuticals, Inc. (Nasdaq: NRXP) (“**NRx**”), of its collaboration partner with respect to aviptadil, NeuroRx, Inc. (“**NeuroRx**”), has announced enhancements to its Expanded Access and Right to Try programs. The press release states that these programs enable patients with respiratory failure from COVID-19, who have tried all approved medicines, including remdesivir, and who are not able to participate in a clinical study, to receive aviptadil upon a physician’s prescription. According to the press release, NRx will continue to provide aviptadil to hospitals enrolled in NRx’s Expanded Access Protocol under U.S. Food and Drug Administration guidelines. The press release also reported that NRx is also making aviptadil available as an investigational medicine under the Federal Right to Try Act. The related NRx press release can be accessed through the following [link](#).

#### **ABOUT RELIEF**

Relief focuses primarily on clinical-stage programs based on molecules with a history of clinical testing and use in human patients or a strong scientific rationale. Relief’s lead drug candidate, RLF-100™ (aviptadil), a synthetic form of Vasoactive Intestinal Peptide (VIP), is in late-stage clinical testing in the U.S. for the treatment of respiratory deficiency due to COVID-19 through Relief’s collaboration partner in the U.S., NeuroRx. As part of its pipeline diversification strategy, in March 2021, Relief entered into a Collaboration and License Agreement with Acer Therapeutics for the worldwide development and commercialization of ACER-001. ACER-001 is a taste-masked and immediate release proprietary powder formulation of sodium phenylbutyrate (NaPB) for the treatment of Urea Cycle Disorders and Maple Syrup Urine Disease. Finally, Relief’s recently completed acquisitions of APR Applied Pharma Research SA and AdVita Lifescience GmbH, bring to Relief a diverse pipeline of marketed and development-stage programs.

RELIEF THERAPEUTICS Holding SA is listed on the SIX Swiss Exchange under the symbol RLF and quoted in the U.S. on OTCQB under the symbols RLFTF and RLFTY. For more information, visit [www.relieftherapeutics.com](http://www.relieftherapeutics.com).
